

Advantages with CONTI+

- | | |
|------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Energy efficient: | <ul style="list-style-type: none"> - Solar version – up to 6-10 years battery life time - Turbine version – up to 6 years battery life time |
| Water efficient | <ul style="list-style-type: none"> - 70% water saving in comparison with single lever faucets - Short time return on investment |
| Unique valve | <ul style="list-style-type: none"> - Operating pressure 0,3-10 bar - Energy efficient valve (bi-stable) – uses energy only to open and close - Temperature resistant - up to 80°C |
| Unique electronics | <ul style="list-style-type: none"> - Adjustable by hand, without remote control - Settings can be done also through CONTI+ Service APP - Auto protection in case of vandalism - Complex settings can be done also by computer via “Service Monitor” |
| Modular structure
& spare parts | <ul style="list-style-type: none"> - Same valve is used for all CONTI+ products (faucets, urinals, showers) - In many cases same sensor for different faucets |
| Unique
maintenance | <ul style="list-style-type: none"> - All maintenance operations can be done from above or from the front - 3 Allen keys can solve 99% of problems |
| Safety | <ul style="list-style-type: none"> - Vandal proof construction – battery is inside the faucet - Automatic sensor shut-off in case of vandalism - Anti-scalding protection adjustment - 100% quality check before delivery |
| Multiple energy
sources | <ul style="list-style-type: none"> - Battery <> Transformer <> Concealed transformer - Solar <> Turbine <> VARIOconnect (integrated network) - CNX Water Management System |
| Certificates | <ul style="list-style-type: none"> - Worldwide green certifications compliant (LEED, Breeam, etc.) - Product certifications from around the world (DVGW, WRAS, WaterMark, Sintef, etc.) |

Unique advantages with CONTI+

SIMPLE MAINTENANCE

all maintenance can be done from above without dismantling

TOUCH or CLICK setting technology

without remote control

TURBINE & SOLAR Technology

battery lasts up to 8 years

CNX –Water Management System

managing the Taps, Urinals and Showers through a web server with a computer, tablet or a smart-phone wireless sensors setting, activation of features and history of usage
